SPECIAL NOTE

All 1933 thru 41 engine numbers are stamped on a pad at the left front of the cylinder block, just below the cylinder head gasket.
 The 1935 thru 38 models have car serial number on top of frame just ahead of steering gear bracket.
 The 1939-40 car Serial Numbers are on the front frame cross member just below the generator.
 1941 thru 48 car Serial Numbers are located beneath the Fisher Body Number plate under the Hood on the left side of the dash.
 1949 thru 56 car Serial Numbers are located on a metal tag attached to the left front hinge pillar.
 The 1942 thru 56 car Serial Number is also located on a raised Pad at the front of the L.H. side of the cylinder block.
 In order to conserve space in the model column of this book it is necessary to use a model code rather than the name of the car.
